

# PRUDHVI RAJU INDUKURI

## Transportation & Traffic Engineer

Hyderabad, Telangana, India | 📞 +91 73307 18501 | ✉️ prudhviraju.i@outlook.com

🌐 [linkedin.com/in/prudhvi-indukuri](https://www.linkedin.com/in/prudhvi-indukuri)

### PROFESSIONAL SUMMARY

---

Transportation & Traffic Engineer with 5+ years of experience delivering traffic impact studies, operational analysis, and transportation planning projects across Georgia and New York. Experienced in Synchro, SimTraffic, Highway Capacity Manual (HCM) methodologies, ITE Trip Generation (12th Edition), traffic forecasting, and technical report preparation. Contributed to more than 100 transportation studies involving residential, mixed-use, commercial, industrial, and public infrastructure projects, including GDOT and NYC agency-related work.

### KEY HIGHLIGHTS

---

- 100+ transportation studies across Georgia
- Traffic Impact Studies (TIS), DRI, ICE, and SWA
- Synchro and SimTraffic operational modeling
- HCM-based capacity, LOS, delay, and queue analysis
- GDOT and NYC transportation project experience

### TECHNICAL SKILLS

---

**Traffic Engineering:** Traffic Impact Studies (TIS), Traffic Operations, Traffic Simulation, Development of Regional Impact (DRI), Intersection Control Evaluation (ICE), Signal Warrant Analysis (SWA), Access Control Management, Capacity Analysis

**Software:** Synchro, SimTraffic, AutoCAD, MicroStation, Civil 3D, ArcGIS, Excel, Word

**Standards:** HCM, MUTCD, GDOT, AASHTO, ITE Trip Generation Manual (12th Edition)

### PROFESSIONAL EXPERIENCE

---

**A&R Engineering, Inc.** | Traffic Engineer

Hyderabad, Telangana, India | February 2022 – Present

- Led traffic impact studies (TIS), Development of Regional Impact (DRI) studies, and operational analyses for residential, mixed-use, commercial, and industrial developments.
- Developed Synchro and SimTraffic models for signalized intersections and corridor operations.
- Performed HCM-based LOS, delay, queue, and capacity analyses.
- Prepared trip generation, trip distribution, traffic assignment, and traffic forecasting analyses.
- Evaluated access management alternatives including RIRO, LILO, full access, RCUTs, roundabouts, and signal improvements.
- Prepared technical reports, exhibits, and agency review documentation.
- Coordinated multidisciplinary traffic analysis, CAD, and report deliverables to support agency submissions and project approvals.
- Reviewed technical analyses and reports prepared by junior engineers.

- Prepared agency-ready technical documentation and responded to review comments for GDOT and local jurisdiction transportation studies.
- Contributed to more than 100 transportation studies across Georgia involving traffic operations, development review, and ICE studies.

## **ADDITIONAL PROFESSIONAL EXPERIENCE**

**Gandhi Engineering, Inc. (Acquired by COWI) | Transportation / Civil Engineer I**  
New York, USA | December 2018 – July 2020

### **Aqueduct Walk Park, Bronx, NY**

- Conducted site investigations and engineering evaluations for retaining wall rehabilitation.
- Prepared engineering calculations, CAD drawings, and technical reports for pedestrian bridge feasibility and design.
- Coordinated field inspections and progress reporting with NYC agencies and project managers.

### **Van Sinderen Streetscape Improvements, Queens, NY**

- Designed streetscape, sidewalk, and pedestrian infrastructure improvements for a 3,000-ft urban corridor adjacent to NYCTA and LIRR facilities.
- Contributed to pedestrian safety, ADA accessibility, lighting, landscaping, and traffic safety improvements.

### **Manhattan Pedestrian Project, New York**

- Designed ADA-compliant pedestrian ramps at 50 locations across New York City.
- Conducted site investigations and prepared design calculations and CAD drawings for preliminary and final design.

**Gorron dona & Associates, Inc. and ECS Southwest LLP | Field Engineer**  
Dallas-Fort Worth Metroplex, Texas | September 2017 – November 2018

- Conducted field and laboratory testing of soil, asphalt, and concrete materials.
- Prepared detailed engineering field and laboratory reports documenting test results and site conditions.
- Evaluated construction site conditions and quality control compliance.
- Reviewed project specifications, geotechnical reports, and construction documentation.
- Coordinated with contractors, engineers, and technicians during construction activities.

## **EDUCATION**

---

### **Cleveland State University**

M.S. Civil Engineering (Transportation Engineering) | Cleveland, Ohio | 2015–2017 | GPA: 3.9/4.0

### **Vardhaman College of Engineering**

B.E. Civil Engineering | Hyderabad, India | 2010–2014

## **CERTIFICATIONS**

---

- Engineering in Training (E.I.T.)
- ACI Concrete Technician
- WACEL Soil Technician
- Fundamentals of GIS (Coursera)
